1	Tumours of the lung	9			
	WHO and TNM classifications	10		Papillary adenoma	84
	Introduction	12		Adenomas of salivary gland type	85
	Epidemiology and etiology	12		Mucous gland adenoma	85
	Clinical features and staging	16		Pleomorphic adenoma	86
	Concept of pulmonary neuroendocrine tumours	19		Mucinous cystadenoma	87
	Genetic and molecular alterations	21		Lymphoid / histiocytic tumours	88
	Genetic susceptibility	24		MALT lymphoma	88
	Malignant epithelial tumours	26		Diffuse large B-cell lymphoma	91
	Squamous cell carcinoma	26		Lymphomatoid granulomatosis	92
	Small cell carcinoma	31		Pulmonary Langerhans cell histiocytosis	95
	Adenocarcinoma	35		Mesenchymal tumours	97
	Mixed subtype	37		Epithelioid haemangioendothelioma /	
	Acinar adenocarcinoma	37		angiosarcoma	97
	Papillary adenocarcinoma	38		Pleuropulmonary blastoma	99
	Bronchioloalveolar adenocarcinoma	38		Chondroma	101
	Solid adenocarcinoma	38		Congenital peribronchial	
	Fetal adenocarcinoma	40		myofibroblastic tumour	102
	Mucinous (colloid) adenocarcinoma	40		Diffuse pulmonary lymphangiomatosis	104
	Mucinous cystadenocarcinoma	40		Inflammatory myofibroblastic tumour	105
	Signet ring adenocarcinoma	40		Lymphangioleiomyomatosis	107
	Clear cell adenocarcinoma	40		Pulmonary vein sarcoma	108
	Large cell carcinoma	45		Pulmonary artery sarcoma	109
	Large cell neuroendocrine carcinoma	47		Synovial sarcoma	111
	Basaloid carcinoma	48		Miscellaneous tumours	113
	Lymphoepithelioma-like carcinoma	48		Hamartoma	113
	Clear cell carcinoma	48		Sclerosing haemangioma	115
	Rhabdoid phenotype	48		Clear cell tumour	118
	Adenosquamous carcinoma	51		Teratoma	119
	Sarcomatoid carcinoma	53		Intrapulmonary thymoma	120
	Pleomorphic carcinoma	55		Melanoma	121
	Spindle cell carcinoma	55		Metastases to the lung	122
	Giant cell carcinoma	55			
	Carcinosarcoma	56		2	Tumours of the pleura
	Pulmonary blastoma	56			125
	Carcinoid tumour	59		WHO and TNM classifications	126
	Typical carcinoid	59		Mesothelioma	128
	Atypical carcinoid	59		Epithelioid mesothelioma	132
	Salivary gland tumours	63		Sarcomatoid mesothelioma	133
	Mucoepidermoid carcinoma	63		Desmoplastic mesothelioma	133
	Adenoid cystic carcinoma	65		Biphasic mesothelioma	134
	Epithelial-myoepithelial carcinoma	67		Well differentiated papillary mesothelioma	135
	Preinvasive epithelial lesions	68		Localized malignant mesothelioma	136
	Squamous dysplasia and carcinoma in situ	68		Adenomatoid tumour	136
	Atypical adenomatous hyperplasia	73		Lymphomas	137
	Diffuse idiopathic pulmonary neuroendocrine	76		Primary effusion lymphoma	137
	cell hyperplasia			Pyothorax-associated lymphoma	138
	Benign epithelial lesions	78		Mesenchymal tumours	141
	Papilloma	78		Epithelioid haemangioendothelioma /	
	Squamous cell papilloma	78		angiosarcoma	141
	Glandular papilloma	80		Synovial sarcoma	141
	Mixed papilloma	81		Solitary fibrous tumour	142
	Alveolar adenoma	82		Calcifying tumour	143
				Desmoplastic small round cell tumour	144

3	Tumours of the thymus	145			
	WHO and TNM classifications	146			
	Tumours of the Thymus: Introduction	148			
	Thymomas	152			
	Type A	154			
	Type AB	157			
	Type B1	159			
	Type B2	161			
	Type B3	164			
	Micronodular thymoma	167			
	Metaplastic thymoma	169			
	Microscopic thymoma	171			
	Sclerosing thymoma	171			
	Lipofibroadenoma	171			
	Thymic carcinomas	172			
	Squamous cell carcinoma	172			
	Basaloid carcinoma	175			
	Mucoepidermoid carcinoma	176			
	Lymphoepithelioma-like carcinoma	177			
	Sarcomatoid carcinoma	179			
	Clear cell carcinoma	182			
	Papillary adenocarcinoma	183			
	Non-papillary adenocarcinoma	184			
	Carcinoma with t(15;19) translocation	185			
	Undifferentiated carcinoma	187			
	Thymic neuroendocrine tumours	188			
	Typical carcinoid	191			
	Atypical carcinoid	191			
	Large cell neuroendocrine carcinoma	193			
	Small cell neuroendocrine carcinoma	193			
	Combined thymic epithelial tumours	196			
	Germ cell tumours of the mediastinum	198			
	Seminoma	202			
	Embryonal carcinoma	205			
	Yolk sac tumour	207			
	Choriocarcinoma	209			
	Teratoma	210			
	Mixed germ cell tumours	213			
	GCT with somatic type malignancy	216			
	GCT with haematologic malignancies	219			
	Lymphomas of the mediastinum	221			
	Primary large B-cell lymphoma	222			
	Thymic MALT lymphoma	225			
	Precursor T-lymphoblastic lymphoma / leukaemia	227			
	Anaplastic large T-cell lymphoma	229			
	Hodgkin lymphoma	230			
	Grey zone lymphoma Hodgkin / NHL	233			
	Histiocytic tumours	234			
	Dendritic cell tumours	236			
	Myeloid sarcoma and extramedullary AML	238			
	Soft tissue tumours of the mediastinum	239			
	Thymolipoma	239			
	Mediastinal lipoma	240			
	Liposarcoma	240			
	Solitary fibrous tumour	241			
	Rhabdomyosarcoma	242			
	Synovial sarcoma	244			
	Vascular neoplasms	244			
	Leiomyomatous tumours	244			
	Neurogenic tumours	245			
	Ectopic thyroid tumours	246			
	Ectopic parathyroid tumours	246			
	Metastases to the mediastinum	247			
	4	Tumours of the heart	249		
	WHO classification	250			
	Introduction	251			
	Benign tumours with myocyte differentiation	254			
	Rhabdomyoma	254			
	Histiocytoid cardiomyopathy	256			
	Hamartoma of mature cardiac myocytes	258			
	Adult cellular rhabdomyoma	259			
	Benign tumours of pluripotent mesenchyme	260			
	Cardiac myxoma	260			
	Papillary fibroelastoma	263			
	Haemangioma	266			
	Benign tumours with myofibroblastic differentiation	268			
	Cardiac fibroma	268			
	Inflammatory myofibroblastic tumour	270			
	Cardiac lipoma	271			
	Cystic tumour of atrioventricular node	272			
	Cardiac sarcomas	273			
	Angiosarcoma	273			
	Epithelioid haemangioendothelioma	275			
	Pleomorphic malignant fibrous histiocytoma / undifferentiated pleomorphic sarcoma	276			
	Fibrosarcoma and myxosarcoma	277			
	Rhabdomyosarcoma	278			
	Leiomyosarcoma	280			
	Synovial sarcoma	280			
	Cardiac lymphomas	282			
	Metastatic tumours to the heart	284			
	Pericardial tumours	285			
	Solitary fibrous tumour	285			
	Malignant mesothelioma	286			
	Germ cell tumours	287			
	Metastatic pericardial tumours	287
