Subject Index

Access to data, 202, 206, 270
Accession number, 84, 85, 88, 263
Active data collection, 37, 191
Address of patient, 50, 193
Advisory committee, 23, 190
Age
  at incidence, 51
  pattern of cancer incidence, 8
Age-specific incidence rates, 8, 123, 129, 130
Age-standardized cancer ratio (ASCAR) 153–155
Age-standardized rates, 129–147
  direct method, 131
  indirect method, 142
  standard error, 135
Autopsy reports, 32, 55, 56, 222
Automatic coding *see* Coding, computerized

Behaviour of tumour, 57
  in ICD-O, 71, 74
Benign tumours, CNS, 32
Biopsy, 55
Birth
  cohorts, 123
  date, 46, 49
  place, 50
Borderline malignancies, 32, 33, 56

Cancer registry
  data sources, 29–41
  definition, 23
  hospital-based, 177–184
  operations, 82–100, 230–231
  planning 22–28
  purposes 7–21
  recommended size, 24, 190
  reporting of results, 108–125
CANREG software, 267–274
Carcinoma *in situ*, 58, 69
Case-control studies, 17
Case finding *see* Data sources
Cause of death
  coding, ICD, 34, 62
  recording, 62
Cervical cancer
  radiotherapy risks, 18
  screening, 19
Childhood tumours, 19, 44, 76
Classification of neoplasms, 64–81
Coding
  cause of death, 34
  computerized, 94
  country names, 208
  in CANREG, 268
  manual, 93
  neoplasms, 64–81, 90, 232, 252
  of data, 89, 243, 248, 264
  revisions, 80, 91
Computer
  access restriction, 203, 206
  CANREG software, 267–274
  checks for data quality, 104–105
  equipment, 27, 234
  in developing countries, 195
  in registry operations, 82-100, 241
  storage 92–93
Confidence intervals, 138, 139, 145–147
Confidentiality of data, 1, 24, 89, 99, 189, 199–207
  Danish Cancer Registry, 236
Connecticut, 4
Consistency of data *see* Validation
Crude incidence rates, 128, 130
Cumulative rate, 147–150
  standard error, 149
Cumulative risk, 147–148
Cytology reports, 32, 192

Data
  accuracy, 102
  coding, 89, 93–94
  collection, 37–41, 191, 201, 240
  completeness, 101, 102–104
  consistency *see* Validation
  items, 43–63, 181–182, 192–194, 237
  quality, 101–107
  security *see* Confidentiality
  transmission, 201
  validation, 90, 104, 212–219

Data sources
  autopsy services, 32, 222
  cytology services, 32, 192
  death certificates, 33, 55, 63, 192
  haematology laboratories, 33, 192
  hospitals, 29, 191, 222, 247
  outpatient clinics, 31, 192
  pathology laboratories, 31, 191, 248
  private clinics, 31, 192
  radiotherapy departments, 39, 191
  recording, 62
Date of birth, 46, 49
Death certificate
  abstracts, 264
  as data source, 33, 55, 63, 192, 241
Death Certificate Only cases
  definition, 34–35, 55, 63, 194
  in survival analysis, 160
  uses, 111
Denmark
  cancer incidence, 9
  cancer registration, 3, 24
  Cancer Registry, 4, 220–236
Developing countries, 185–198
Diagnosis
  basis of, 54
  certainty, 56
Differentiation, 73
Discharge letter, 39
Disk storage, 93
Documentation of system, 90–91, 235

Editing of data *see* Validation
England and Wales, cancer registration, 24
Enquiry generation, 97
Epidemiology
  analytical, 17
  data release for, 204
  descriptive, 8
  research, 7
Equipment, 27
Error messages, 105, 106
Ethnic group, 57
  differences, 14, 15
Etiology, 8
Extent of disease, 58

Fatality ratio, 175
Finance for cancer registration, 25, 191
Follow-up, 98, 160–161, 182–183, 188, 194, 244
Forecasting, 18
Forms, notification, 38, 223, 225–229, 238–239, 260–262

General practitioners, 35
Geographic variation in cancer incidence, 10–13
German Democratic Republic, 24
Grading, 73
Graphical presentation of results, 113
  bar graph, 113, 119
  component band graph, 120, 121
  histogram, 113, 119
  line graph, 121–125
  pie chart, 120
Gynaecological cancers
  staging, 58

Haematology laboratories, 33, 192
Hamburg, cancer registration, 3, 4
Histological verification of diagnosis, 55, 73, 111
Histology
  reports, 31, 42, 55
  validation versus site 215–217
  see also Morphology
History of registration, 3
Hodgkin's disease, 71, 72
  in ICD-9, 69, 75
  in ICD-O, 70
Hospitals
  as data sources, 29, 40
  cancer registries, 1, 22, 23, 29, 177–184, 186
Human immunodeficiency virus (HIV), 77
Hungary, 3

Iceland, 3, 24
Identification
  information, 17, 46, 188, 237
  number, 36, 46, 48, 223
Incidence
  age-specific rates, 129
  age-standardization, 129–147
  calculating rates, 126
  crude, 128
  date, 54, 160
  rates, 8, 126
  reporting, 108–124
