

TABLE OF CONTENTS

Working group participants	vii
Preamble	ix
Definitions	xi
Roles of biological resource centres in cancer research	1
Importance of BRCs	1
<i>BRCs are critical for cancer research</i>	1
<i>BRCs are important for developing personalised medicine</i>	1
<i>BRCs have an impact on biotechnological and medical innovation</i>	2
<i>Importance of networking and exchanges between BRCs</i>	2
Issues in developing BRCs and using banked specimens	2
Principles for sustainable BRCs	3
Recommendations for BRCs	5
Protection of persons	5
<i>Biological hazards</i>	5
<i>General laboratory safety</i>	5
<i>Data management and informatics security</i>	6
<i>Biosecurity</i>	6
General considerations for establishing a BRC	6
<i>Institutional commitment</i>	6
<i>BRC management and staff</i>	7
Infrastructure and facilities	7
Storage conditions	8
<i>Cryopreservation</i>	8
<i>Other fixation and preservation methods</i>	9
<i>Liquid nitrogen (LN2) tanks</i>	10
<i>Mechanical freezers</i>	10
<i>Dry ice</i>	10
Standard operating procedures	11
Records management	11
Specimen labelling	11
Specimen collection, processing and storage	12
<i>Collection of blood or blood-derived products</i>	12
<i>Blood</i>	12
<i>Buffy coat</i>	13
<i>Collection of solid tissues</i>	14
<i>Collection of other specimens</i>	14
<i>Urine</i>	14
<i>Buccal cells</i>	14
<i>Cytobrush</i>	14
<i>Mouthwash</i>	15
<i>Treated cards</i>	15
<i>Saliva</i>	15

<i>Bronchoalveolar lavage (BAL)</i>	15
<i>Bone Marrow Aspirate (BMA) and Fine Needle Aspirate (FNA)</i>	16
<i>Cerebrospinal fluid (CSF)</i>	16
<i>Semen</i>	16
<i>Cervical and urethral swabs</i>	17
<i>Hair</i>	17
<i>Nail</i>	17
Specimen annotations, data collection	17
<i>Annotations on patients/individuals</i>	17
<i>Annotations on stored specimens</i>	18
Quality control	18
Specimen shipping	18
<i>Regulations</i>	19
<i>Packaging</i>	19
<i>Labelling</i>	20
Access to stored materials and data for research purposes	20
Principles for international specimens exchanges	21
BRC work flow pattern	22
Selected protocols	23
Processing of blood specimens	23
<i>Filter papers</i>	23
<i>Blood pellets (white cells)</i>	23
<i>Plasma</i>	24
<i>Platelet-poor plasma</i>	24
<i>Serum</i>	24
<i>White blood cells</i>	24
<i>Buffy coat cells</i>	25
<i>Whole blood</i>	25
Processing of solid tissue specimens	25
<i>Snap-freezing</i>	25
<i>Formalin fixation</i>	28
<i>RNAlater</i>	28
Processing of urine and buccal cells	28
<i>Urine</i>	28
<i>Buccal cells</i>	29
<i>Saliva</i>	29
Processing of cervical cells	30
Processing of hair and nails	31
<i>Hair</i>	31
<i>Nails</i>	31
Annexes	
Abbreviations	32
Glossary	33
Bibliography	35
