Publications of the World Health Organization enjoy copyright protection in accordance with the provisions of Protocol 2 of the Universal Copyright Convention. All rights reserved.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the World Health Organization concerning the legal status of any country, territory, city, or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned.

Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

The authors alone are responsible for the views expressed in this publication.

The International Agency for Research on Cancer welcomes requests for permission to reproduce or translate its publications, in part or in full. Requests for permission to reproduce or translate IARC publications – whether for sale or for non-commercial distribution – should be addressed to the IARC Communications Group, at: [publications@iarc.fr](mailto:publications@iarc.fr).

Cover image: The photo shows a mosaic blood vessel pattern and mild acetic acid uptake in a small type 1 transformation zone surrounding copious clear mucus, through which normal columnar epithelium is clearly seen. Photo reproduced with kind permission from Dr Montserrat Cararach and the Spanish Colposcopy Society.

This book is also available in electronic format from
