

SOME CHEMICALS USED AS SOLVENTS AND IN POLYMER MANUFACTURE

VOLUME 110

This publication represents the views and expert opinions of an IARC Working Group on the Evaluation of Carcinogenic Risks to Humans, which met in Lyon, 3–10 June 2014

LYON, FRANCE - 2017

¹ Working Group Members and Invited Specialists serve in their individual capacities as scientists and not as representatives of their government or any organization with which they are affiliated. Affiliations are provided for identification purposes only. Invited Specialists do not serve as Meeting Chair or Subgroup Chair, draft text that pertains to the description or interpretation of cancer data, or participate in the evaluations.

Each participant was asked to disclose pertinent research, employment, and financial interests. Current financial interests and research and employment interests during the past 4 years or anticipated in the future are identified here. Minor pertinent interests are not listed and include stock valued at no more than US\$ 1000 overall, grants that provide no more than 5% of the research budget of the expert's organization and that do not support the expert's research or position, and consulting or speaking on matters not before a court or government agency that does not exceed 2% of total professional time or compensation. All grants that support the expert's research or position and all consulting or speaking on behalf of an interested party on matters before a court or government agency are listed as significant pertinent interests.

² Scott Bartell has received research funding from the C8 class action settlement agreement between DuPont and plaintiffs. Funds were administered by the Garden City Group (Melville, New York) that reports to the court. The research was independent of either party to the lawsuit.

Observers⁷*Josje Arts*⁸

Akzo Nobel NV
Arnhem
The Netherlands

⁴ Currently on leave from University of Lille 2, Faculty of Pharmacy, Department of Toxicology.

⁵ Kyle Steenland has received research funding from the C8 class action settlement agreement between DuPont and plaintiffs. Funds were administered by the Garden City Group (Melville, New York) that reports to the court. The research was independent of either party to the lawsuit.

⁶ John Cherrie has received significant research funding from the Association of Plastic Manufacturers Europe (APME, till 2012), the European Chemical Industry Council (CEFIC), the European Solvents Industry Group (ESIG, till 2012), CONCAWE and International Paint.

⁷ Each Observer agreed to respect the Guidelines for Observers at *IARC Monographs* meetings. Observers did not serve as Meeting Chair or Subgroup Chair, draft any part of a *Monograph*, or participate in the evaluations. They also agreed not to contact participants before the meeting, not to lobby them at any time, not to send them written materials, and not to offer them meals or other favours. IARC asked and reminded Working Group Members to report any contact or attempt to influence that they may have encountered, either before or during the meeting.

⁸ Josje Arts is senior toxicologist of Akzo Nobel, the Netherlands. Her participation is sponsored by the three organizations for which she is an observer, the REACH Chlorosolv Consortium, the European Chlorinated Solvent Association (ECSA), and the Halogenated Solvents Industry Alliance (HSIA).
