

## WHO Classification of Tumours, 5th edition: Female Genital Tumours Corrections made in the second print run

### Summary of corrections:

#### Table of contents

8 Tumours of the uterine cervix

p. ix

The hierarchy of the section titles has been corrected as shown, so that “Other epithelial tumours” is no longer subordinate to “Glandular tumours and precursors”.

Original text		Corrected text	
<b>8 Tumours of the uterine cervix</b>	<b>335</b>	<b>8 Tumours of the uterine cervix</b>	<b>335</b>
...		...	
Glandular tumours and precursors		Glandular tumours and precursors	
...		...	
Other epithelial tumours		Other epithelial tumours	
Carcinosarcoma	382	Carcinosarcoma	382
Adenosquamous and mucoepidermoid carcinomas	383	Adenosquamous and mucoepidermoid carcinomas	383
Adenoid basal carcinoma	384	Adenoid basal carcinoma	384
Carcinoma, unclassifiable	386	Carcinoma, unclassifiable	386
Mixed epithelial and mesenchymal tumours		Mixed epithelial and mesenchymal tumours	

#### WHO classification tables

Footnotes

p. 2–4, 6, 8–14

The following footnote has been added below the WHO classification (ICD-O coding) tables:

**Subtype labels are indented.**

#### WHO classification of tumours of the uterine cervix

Glandular tumours and precursors

p. 8

The subheading “Other epithelial tumours” has been added as shown.

Original text		Corrected text	
<b>Glandular tumours and precursors</b>		<b>Glandular tumours and precursors</b>	
...		...	
8380/3 Endometrioid adenocarcinoma NOS		8380/3 Endometrioid adenocarcinoma NOS	
8980/3 Carcinosarcoma NOS			
8560/3 Adenosquamous carcinoma		<b>Other epithelial tumours</b>	
8430/3 Mucoepidermoid carcinoma		8980/3 Carcinosarcoma NOS	
8098/3 Adenoid basal carcinoma		8560/3 Adenosquamous carcinoma	
8020/3 Carcinoma, undifferentiated, NOS		8430/3 Mucoepidermoid carcinoma	
		8098/3 Adenoid basal carcinoma	
		8020/3 Carcinoma, undifferentiated, NOS	

The footnote text has been modified to clarify that the FIGO staging information presented on these two pages is from the 2009 FIGO publication.
