SOURCE OF POPULATION

United States Census Bureau population estimates for 2013–2017 are a modification of the annual time series population estimates produced by the Population Estimates Program of the Census Bureau with support from the National Cancer Institute. The population estimates incorporate bridged single-race estimates derived from the original multiple-race categories in the 2010 census. These bridged estimates are consistent with the four race groups enumerated in the 1990 census and were produced under a collaborative arrangement between the National Center for Health Statistics and the Census Bureau. The methodology implemented by the Census Bureau to develop these county estimates is comparable to that used to produce national and state 1990–2000 intercensal estimates and is described on the Census Bureau website.

USA, Minnesota: Asian and Pacific Islander (2013–2017)
Average annual person-years by sex and age group

SOURCE OF POPULATION

Provided by the United States Census Bureau, based on decennial censuses and several other surveys, from which annual estimates of the population for each state are derived. Population estimates for the denominators of incidence and mortality rates are race-specific, ethnicity-specific, and sex-specific county population estimates aggregated to the state or metropolitan-area level.

NOTES ON THE DATA

Average annual person-years by sex and age group

SOURCE OF POPULATION

Provided by the United States Census Bureau, based on decennial censuses and several other surveys, from which annual estimates of the population for each state are derived. Population estimates for the denominators of incidence and mortality rates are race-specific, ethnicity-specific, and sex-specific county population estimates aggregated to the state or metropolitan-area level.

USA, Ohio: Asian and Pacific Islander (2013–2017)
Average annual person-years by sex and age group

SOURCE OF POPULATION

Postcensal county estimates by age, sex, race, and ethnicity at the 1 July mid-year point. Based on the 2000 national census carried out by the United States Census Bureau, including the bridged single-race estimates derived from the original multiple-race categories.

NOTES ON THE DATA

*Rates based on low numbers due to small population.

USA, Oregon: Asian and Pacific Islander (2013–2017)
Average annual person-years by sex and age group

SOURCE OF POPULATION

Postcensal county estimates by age, sex, race, and ethnicity at the 1 July mid-year point. Based on the 2000 national census carried out by the United States Census Bureau, including the bridged single-race estimates derived from the original multiple-race categories.

NOTES ON THE DATA

*Rates based on low numbers due to small population.
