Executive summary	16
Abbreviations	25
Introduction	28
Chapter 1.	33
The global epidemiology of gastric cancer and <i>Helicobacter pylori</i> : current and future perspectives for prevention	
Chapter 2.	53
Current evidence from randomized controlled trials of the benefits and harms of population-based <i>Helicobacter pylori</i> screen-and-treat strategies for gastric cancer prevention and review of the existing recommendations, consensus reports, and guidelines	
Chapter 3.	72
Examples of gastric cancer prevention efforts by World Health Organization region	
WHO African Region	73
Chapter 3.1.	74
Gastric cancer in Africa, with a focus on Nigeria and Zambia	
WHO Region of the Americas	90
Chapter 3.2.	91
Gastric cancer prevention in Latin America and the Caribbean	
Chapter 3.3.	108
Gastric cancer prevention research in the USA	

Chapter 3.4.	123
Gastric cancer prevention in Arctic North America (Alaska, Canada, and Greenland)	
WHO European Region.....	145
Chapter 3.5.	146
Gastric cancer prevention efforts in Europe (EUROHELICAN, TOGAS, and HPSS projects)	
WHO South-East Asia Region	170
Chapter 3.6.	171
Gastric cancer prevention programme in Bhutan	
WHO Western Pacific Region	193
Chapter 3.7.	195
Gastric cancer prevention in China	
Chapter 3.8.	222
Gastric cancer prevention in Japan	
Chapter 3.9.	234
Gastric cancer prevention in the Republic of Korea	
Chapter 3.10.	250
Population-based <i>Helicobacter pylori</i> screen-and-treat strategy to prevent gastric cancer in the Matsu Islands	
Chapter 3.11.	270
Journey towards piloting a <i>Helicobacter pylori</i> screen-and-treat programme to address gastric cancer inequities in Aotearoa New Zealand	
Chapter 4.	287
Needs and readiness for the implementation of <i>Helicobacter pylori</i> screen-and-treat strategies for gastric cancer prevention locally	
Chapter 5.	317
Considerations for choice of population-based <i>Helicobacter pylori</i> detection methods	

Chapter 6.	338
Considerations for choice of <i>Helicobacter pylori</i> treatment regimens	
Chapter 7.	358
Antibiotic stewardship for population-based <i>Helicobacter pylori</i> screen-and-treat programmes, including testing of cure and monitoring of antibiotic resistance	
Chapter 8.	388
Process and outcome measures for improving the quality and equity of <i>Helicobacter pylori</i> screen-and-treat programmes for gastric cancer prevention	
Chapter 9.	411
How to optimize the cost–benefits of <i>Helicobacter pylori</i> screen-and-treat programmes for gastric cancer prevention	
Disclosures of interests	443
